An exchange says it pays to keep on the right side of newspaper men. Every newspaper treasures up in its memory the names of friends and likewise its enemies. It never overlooks an opportunity to assist the farmer, but never goes out of the way to aid the latter. Human nature is the same everywhere. People who show a newspaper man kindness never make a better investment, or one that more surely repays them a hundred fold sooner or later. As has been truly said: "There occasionally comes a time in the life of every man when a word said by a newspaper either makes or unmake the individual mentioned." The man who says he does not care what the papers say of him lacks truthfulness or intelligence.
